Work Experience

Software Development Intern Pontiac, Michigan
United Wholesale Mortgage May 2026-August 2026

- Collaborated with a team of 7 engineers to develop an AI model that automatically classifies and maps bulk contact uploads to structured database fields, improving data ingestion accuracy and automation.
- Developed a synthetic data generation script that expands the training dataset by 3x, overall increasing model accuracy.

Software Development Instructor Southfield, Michigan
Engineering Society of Detroit June 2025-August 2025

- Taught lessons to middle and high school students on programming concepts including algorithms, binary/decimal conversion, loops, conditionals, and data types.
- Guided students through coding projects in Python, developing computational thinking and debugging skills, resulting in an average 39% improvement in student performance.
- Adapted instruction for varying skill levels to maintain engagement and comprehension.

Education

Honors Oakland University Rochester, Michigan
Bachelor of Science in Computer Science 2027 September 2023 - Present

- GPA: 3.7/4.0
- Relevant Coursework: Programming in C, Object-Oriented Programming, Data Structures & Algorithms, Computer Organization, Design and Analysis of Algorithms, Database Design and Implementation.
- Awards: Division 1 Athlete Scholarship, Dean's List, MI Achievement Scholarship, OU Academic Scholarship

Projects

VetNav

- Won the Social Good Track at Grizzhacks 8, a hackathon at Oakland University featuring 159 participants from across the nation.
- Built a full-stack React + Node.js app that connects veterans with nearby VA hospitals and streamlines access to benefits based on service history, rank, and disability rating.

Basketball Buddies

- Collaborated with a team of 5 in order to develop a responsive mobile app using React and Node.js, that allowed users to find matches with basketball players in their area.
- Implemented SQL databases to store user information in a secure and efficient manner, allowing seamless retrieval and updating of player profiles.

Technical Skills

Programming Languages: Java, JavaScript, Python, HTML, CSS, SQL
Frameworks/Technologies: React, Node.js, Firebase, Git, Docker
Spoken Languages: Spanish
